### 1 How to remotely view the cameras on computer?

The Computer Management Software (named "EseeCloud") enables you to view, playback and manage the camera system on PC Client.

**1** Connect NVR with LAN port of home router via Ethernet cable (make sure your system is ONLINE).

Please go to our website directly to download PC software to your computer: http://www.ckkcamera.com/download\_category.php

Note: PC software for Windows system and for Mac system is different.

**3** Install and run PC software on your computer and log in

Default User Name: admin

Default Password: no password, leave it blank/empty, and click "Login"

	Forget Password? Switch to Login Cloud

### 4 Add Device:

Click" add "on the top right corner of computer software, then pop up the window as below, choose "Cloud ID", input device information and click" Finish" to save.

Here you only need to change below information

---Cloud ID: Display at right lower corner of the monitor.

---Username Password (same as NVR system).

---Device name:

---Number of channels (default number of channels is 1, please revise it depends on your NVR channel, 4CH or 8CH)

O IP/DDNS	*Cloud ID:	1234567890	Port:	10000
Cloud ID	User Name:	admin	Password:	
	Area:	center 🗸	Device Name:	
	Туре:	NVR	*Number Of Channels:	8
	Channel Serial:	1	Channel Name:	ch_1
	Channel Type:	Normal	Panorama:	Close
		Finish	Cancel	

### **5** View Camera on computer:

After you add device successfully, please double click the device cloud ID to open all channels or double click each channel one by one to get the videos.

## 2 How to playback the recorded footage on computer?

Refer to "8. How to remotely view the cameras on computer".
 Click "Playback" icon at tool bar.

**3** Then choose channel> Double click channel number below device list > Choose Date and click" Retrieval" to search video and playback.

# 3 How to backup video footage on computer?

1 Refer to "9. How to playback the recorded footage on computer")

**2** Click "Download" icon on the right lower corner, the whole recorder footage of this channel will pop up.
