What is the red triangle icon in the lower left corner of the screen?

When the NVR has an alarm, a red triangle icon will be displayed in the lower left corner of the screen. Click this icon to see the detailed alarm information, including motion detection, HDD error, network error...

If you don't want it to display, you can close it:

Please right click your mouse into menu "system setup" > general setup > error setup > uncheck" alarm icon".
