

## Playback on screen/monitor

Right click your mouse --> Choose Video playback --> Choose date and channel --> Choose a time period --> click Search --> double click the time bar to playback.

The screenshot shows a video playback interface with the following elements:

- Calendar:** A calendar for June 2019. A red box highlights the date 13th, with an arrow pointing to it from the text "1. choose date and channel".
- Search Panel:** A panel on the right with checkboxes for "Time", "Motion", and "Sensor". A time range "00 :00 - 23 :59" is selected. A red box highlights the "Search" button, with an arrow pointing to it from the text "2. choose time then click 'search'".
- Search Results Table:**

CH	Begin Time	Size
1	23:00:00	15M
4	23:00:00	10M
3	23:00:00	41M
2	23:00:00	58M
4	22:00:00	10M
3	22:00:00	41M
2	22:00:00	59M
1	22:00:00	15M
- Time Bar:** A horizontal bar at the bottom showing a timeline from 0H to 24H. A red vertical line is positioned at 16H, with an arrow pointing to it from the text "3. Double click the time bar to play".
- Playback Controls:** Includes "Day" and "Hour" buttons, a current time of "16:09:10", and playback buttons (play, pause, stop, x1).
- File Playback Panel:** A panel on the right with buttons for "File Playback", "Backup", "Exit", and a file format dropdown set to "avi".

## Playback and download on mobile

Play back videos in the HDD on your mobile app. Run the App -->select one channel to play --> click "Playback". You will see the video record (blue bar). The red line is starting point, Drag the blue bar to the red line, click play button.click the "download" at the bottom right corner it will download the record to you phone
